science, while the property was in the hands of the Mar shal, were trespassers. The case was before the Commis-sioner several days, and had a full and thorough hearing The Rev. Crammond Kennedy has resigned the Secretaryship of the New-York Branch of the Freedman's Union Commission, the resignation to take effect October 1. Mr. Kennedy proposes making a lecturing tour through Maine, before closing his connection with the Commission. The Commission hopes to be able to put its Schools in the South on a self-supporting basis within two years at furthest.

within two years at furthest.

The Association of the Alumni met last evening at the Columbia College Law School. William H. Ingersoll, esq., called the meeting to order. Lemnel E. Evans, esq., was appointed Secretary neo tem. Owing to the examination of the students, the attendance was not large. A motion was made to invite the class of "1868" to their annual dinner. Carried. Upon motion the

A large meeting took place last night in the headquarters of the Eighth District Assembly Union Republican Association for the purpose of organizing a Grant Campaign Club. Mr. John W. Farmer occupied the chair, and spoke strongly in favor of the organization. The officers elected were James A. Lucas, President; John P. Jorlomann, Vice-President, and John J. O'Brien, Secretary. At the close of the proceedings, about 70 members had been enrolled.

The Labor Exchange Department, recently Instituted at Castle Garden, which is under the superintendence of Mr. Affred Erbe, has been of incalculable benefit to those emigrants who arrive here in search of employment. When employment is obtained, the agreement is entered in the books, and friends of emigrants may thus at any time obtain information as to their whereabouts. Good house servants may be obtained there at all times.

At a meeting of the Travelers' Club, held at No. 22 Fifth-ave, on Thursday evening, several highly interesting addresses were made. The names of some of the travelers will indicate sufficiently the character of the speeches, Among them were the Rev. J. C. Fletcher Ed. E. Dunbar, S. C. Reed, Dr. Blumenthal, the Hon. E. G. Squier, Mr. Ferguson, Governor of Aruba; Capt. Mayne Reid, Professor Newbury, of Columbia College; George P. Putnam, Dr. Hayes, and D. C. Hitchcock.

George P. Putnam, Dr. Hayes, and D. C. Hitchcock.

Burglars entered the residence of Wm. J.
Leon, No. 67 West Thirty-eighth-st, between 7 and 8
o'clock on Thursday evening, while the family were at
dinner, and stole therefrom about 5,000 worth of jewelry.
The thieves climbed up the balcony to the second story
window, and after gaining an entrance locked all the
doors communicating with the lower part of the house.
They made their escape by the same means as they had
effected an entry, and escaped with their booty unmolested. No arrests yet.

Coroner Flynn is to hold an inquest at No. 215 East Fifty-first-st, over the body of David H. Theall, who is supposed to have committed suicide by taking Jaudanum. Deputy Coroner Knox made a post mortem examination of the body, and found traces of poison in the stomach. Theall was for many years employed as messenger at Firemen's Hall, and was well known and highly respected by a majority of the firemen composing the old Volunteer Department, of which he was for several years an active member. He was a native of this city and 61 years of age.

Fuller's pharmacy at the intersection of Cham-Filler's pharmacy at the intersection of Chambers and Centrests, is becoming a hospital. On Wednesday afternoon a well-dressed lady was seized with a ir, and fell on the sidewalk, splitting open her cheek and injuring herself seriously. She we carried into the drugstore, and received the best attention. On Thursday a book black fell and book his arm, when the Doctor's seriously was run over by a light buggy wagon, and was borne into the Doctor's establishment, and resuscitated from a familing fit.

The New-York correspondent of The Mobile Register predicts a smash-up among the jobbers and importers in this city. He says:—"Heavy obligations will soom fall due—about the end of May, mostly—and the means to meet them will be hard to find. One of the few prosperous dealers on Broadway told me two days ago that Eastern merchants will not be able to pay more than twenty cents on the golder. Western men can do better, and nearly all the mosts will to Sauthern year. better, and nearly all the goods sold to Southern uch were sold for cast all the goods sold to Southern uch will have to be borne by houses which have been selling

The Universal Peace Society will hold its second anniversary at Dodworth's Hall on Friday of next week. The Society issues a circular announcing the Convention, and extends a cordial and aniversal invitation to all supporters of the Radical Peace Movement to be present. "As," says the circular, "there was peace in the beginning—as the prayers and preaching of the people are for it—as governments are established to secure it—as Christendom professes it and armies fight for it—and yet 'there is no peace,' it must be that there are obstacles to be removed and practical rightcoursness to be adopted, that these prayers and professions shall be worth something." "Let disarmament and arbitration extend throughout the world, and national and international connects be formed for the settlement of difficulties without any final resort to the award power."

The functal of the late Rey, Charles F. E.

The funeral of the late Rev. Charles F. E. Stohlmann, paster of St. Matthew's German Evangelical Latheran Church, was solemnized yesterday morning at the new church edifice, corner of Broome and Elizabeth sts. There was a large congregation of mourners and friends of the deceased dergylman in attendance. The remains were taken to the Lutheran Cemetery on Long Island for sepailure. The feet Mr. Stohlmann was born near Buckeburg, Schaumburg, Lippe, in 1816, and emigrated to this country in 1828. He was thirty years paster of the church in Walkerst, the congregation of which had lately purchased the Broomest, edifice, ile was widely known as a writer in The Lutheran Heriid and other German papers. A few hours before death Dr. Stohlmann wrote a memorial for his congregation, extending over three pages of foolscap paper.

The New-York correspondent of The Lonis-

restrained? The unhappy creatures cannot forget the precedent which themselves established when they mobbed Democratic newspaper office and the residences of prominent Democratic leaders at the commencement of the recent eivil war, and it 's not remarkable, therefore, that they should be app schemsive of retaliation; but it is scarcely necessary to assure them that their fears are unfounded. The Democratic party is a party of law and order, and it's best exemplifies its principles by looking to time and the sober sober second thought of the people for 'are redress of wrongs." Can the Editor of The Democrat afford two cents per line to this fellow!

A lecture was delivered last, evening at the

A lecture was delivered last evening at the Presbyterian Church of the Sea and Land, corner of Prishyterian Church of the Sea and Land, corner of Piarket and Henrysts., 13 Capit, I. W. Hart of the Harbor Police, on the "Progress of Crime." The Church was well filled by an attentive audience, which appeared to fully enter into the carnestness of the lecturer. The object of Capit, Hart's lecture was to demonstrate that intemperance is the germ of almost all crime, and in the course of his remarks he made his hearers acquainted with some curious and startling facts. Out of the whole number of prisoners detained for various offenses in this State during 1867, 18-20ths of the total number owed their perpetration of crimes and their consequent panishment to the use of strong drink in early youth. Nor were the serpetration of crimes and their consequent panishment o the use of strong druk in early youth. Nor were the emattes of a prison bis sole examples of the evil effects intersticating liquor. The music by the Chair was well

The drawing-room cars on the Hudson River Road cost \$15,000 cach. The body of each car is 64 feet long. The protections of the platforn add about 10 feet more to the length. Each car contains eight small apartments or drawing-rooms, capable of accommodating four persons each, and four large rooms, suitable for an entire family. One of the large rooms is set apart for the common use of all the occupants of the car, and is fitted up with elegantly uphoistered revolving chairs. Each room except the last contains, beside the scats, a table, mirror, hat-racks, and other conveniences. The body of the car is finished in black walnut and cedar. The roof is elevated, and most artistically frescoed; along the sides reversible exhausters, so arranged as to exclude all cinders, keep the air in the car pure and equal. Cold and hot air conductors, with registers opening into each room, pass through the car. The heaviest plate glass windows, three feet square, supply each room with, and afford a full view of the dissolving landscape as the car rushes along upon its course. Witon carpets cover the floor, and heavy, costly curtains to the windows afford protection to those who desire exclusion from the public eye. The ers are set on six-wheel trucks.

to those who desire exclusion from the public eye. The cars are set on six-wheel trueks.

At the second anniversary meeting of the American Society for the Prevention of Cruelty to Animals, on Thursday evening, Henry Bergh, esq., the President, was in the chair. After some introductory remarks from Mr. Bergh, in which he congratulated the members on the organization of similar societies in New-England and in the West, the report of the Secretary, Mr. John Mudle, was read. The report alludes to the many well-known services rendered by the Society to the community, and which from time to time have been chronicled by the press. The Society's views relative to the slaughtering of cattle, the transportation of meat, the use of horse-flesh as food, and several other kindred satilects, were reiter ated. On the whole, the report, which was lengthy, took a cheering view of the future prospects of the Society. The Treasurer's report gave the receipts for the year at \$13,138-35, and the expenditures at \$4,450-95; investments in United States bonds at \$9,438-95, and in drinking fountains at \$1,350. The officers elected for the ensuing year are as follows: President, Henry Bergh. Vice Presidents—John T. Hoffman, Peter Cooper, Benj. D. Hicks, Wm. H. Aspinwall, Marshall O. Roberts, H. W. Bellows, D. D., James Brown, George T. Trimble, Moses Taylor, Horace B. Claffin. Executive Committee—James T. Brady, John D. Wolfe, August Belmont, Henry Bergh, Frank Leslic, John & Kennedy, John B. Murray, Nicholas Ludium, N. P. Hosack, William McMurray, Ohver H. Perry, Thomas C. Acton, William McMurray, Secretary, N. P. Hosack.

The annual meeting of Commandery No. 1 of the Leaves of the Steep of

C. Acton, William H. Webb, E. G. Squier, John Mudle. Treasurer, John B. Murray. Secretary, N. P. Hosack.

The annual meeting of Commandery No. 1 of Union League of the State of New-York, was held at Delmonico's, corner of Fifth-ave, and Fourteenth-st., on Wednesday evening, the 6th inst., Brevet Col. Burr Porter, senior Vice-Commander, in the chair. The following-named candidates were duly elected members of the Order: For the First Class—Capt. Reed Werden, U. S. Navy, No. 43 West Nincteenth-st., New-York City; Capt. John J. Ahmy, U. S. Navy, No. 24 Sackett-st., Brooklyn, N. Y.; Major Gabriel Grant, late Surgeon Second New-Jersey Vols., New-York City; Major Wm. H. Schieffelin, late First N. Y. Mounted Rifles, No. 15 East Twenty-sixth-st., New-York City. The election of officers for the ensuing year resulted as follows: For Commander, Admiral David G. Farragatt, U. S. Navy; for Senior Vice-Commander, Brevet Col. Horatio C. King, late U. S. Vols.; for Recorder, Brevet Col. Horatio C. King, late U. S. Vols.; for Correspondent, Brevet Lieut-Col. Stuart M. Taylor, late U. S. Vols.; for Chaicellor, Brevet Col. Charles A. Carleton, late U. S. Vols.; for Chaicellor, Brevet Col. Stuart M. Taylor, late U. S. Vols.; for Chaicellor, Brevet Col. Charles A. Carleton, late U. S. Vols.; for Eng.-Gen. O. V. Dayton, late U. S. Vols.; Capt. S. D. Trenchard, U. S. Navy; Brevet Major-Gen. E. L. Molineaux, late U. S. Vols. The order is in a very flourishing condition, and embraces many prominent officers of the army, navy, and volunteer service. The objects are purely social and fraternal, politics being rigidly excluded.

BROOKLYN,—A fashionable wedding in the Eastern District, on Timesday exeming was the sublect

At the annual renting of the pews of the entral Congregational Church on Thursday evening, the um of \$1,500 was realized in premians.

Thursday evening, engaging at work nearly every mem-per of the Board. The laborers employed in Prospect Park were paid of yesterday, and informed that all who failed to return to work on Monday next at the old rates (\$1.50 per day) would not thereafter be employed at any price. A large proportion of the strikers have already returned to

A child three years of age, Anthony Ames by name, residing with its parents at No. 100 Flatbush-ave., was choked to death on Thursday afternoon with a coffee bean, which had slipped down its throat. An inquest was held by Coroner Smith, and a verdict in accordance with the facts was rendered. Father Mac Namara has made arrangements

Father Mae Namidra has made arrangements with the Chy Ralfroad Company, the De Kalb-ave. Company, and the Broadway line, to convey free of charge to the grounds of the New-York Catholic College all persons presculing tickets for the approaching excursion. The excursion is in aid of an educational enterprise.

Elizabeth Gan, 26 years of age, was arrested a Officer sangster list evening, and locked up to answer a accusation of grand larceny. The prisoner is accused a stealing \$50 in Treasury notes from the residence of corge Dictline, No. 115 Leonard st., E. D. The money as recovered.

It is said that the Brooklyn City Railway unpany discharges on an average 1,000 conductors penum. Recently the company discharged all the contents in their service, and put on a new force. The bject was to introduce with "green" hands a new sys-em of making returns of fares by which it is believed be company will be enriched to a considerable amount.

Lizzie Langer, four years of age, whose pa-ents reside in the rear of No. 129 Starg st., E. D., was esterday afternoon run over and shockingly mutilated year No. 296 of the Graham-ave line. It was found ecessary to amputate the child's right limb, and its re-overy is considered doubtful. John Hannan, driver of he car, was arrested by Officer Hamilton and locked up. Mr. John Brennan, the proprietor of a liquor

Mr. John Brennan, the proprietor of a liquor saloon on the corner of Clermont and Flushing-aves., was taken into custody yesterday on the accusation of shooting his wife with a pistol. Mr. Brennan attended the opening of a new saloon in the neighborhood of his residence on Saturday night last and getting into a difficulty returned home for his pistol. His wife seeing that he was laboring under great excitement endeavored to keep him in the house, and failing, tried to wrest the pistol from his hands. In the struggle for its possession the weapon was discharged, and the oail entered Mrs. Brennan's head and dodged in the brain. Mrs. Brennan's head and dodged in the brain. Mrs. Brennan's head and dodged in the brain. Mrs. Brennan's head and dodged in the structure of the time since. The Police being informed of the affair, arrested Brennan yesterday afternoon and lodged him in the Forty-fourth Precinct Police Station to await an investigation. Mr. Brennan says that the pistol was self-cocking, and that at the time it was discharged he was in the act of deivering it to his wife in order to convince her he had no intention of taking it out of the house. He feels very much depressed now that he realizes the consequences of his criminal folly. Mrs. Brennan is about 30 years of age, and has three children.

MISSISQUOI

SPRING WATER

WONDERFUL CURES.

ears were locally known, have now a wide-spread reputation, and are ully established. Thousands have drank of its waters, and all con ascribing to them wooderful efficacy, and bear witness to the marvelou ares produced by their use.

It has not been necessary to resort to the usual method of making this Spring known through the medium of newspaper advertisements, except to distinguish it from the worthless imitations that are now attempted to be paimed upon the public; but fratients supposed to be incurable and hopeless invalids, on their recovery, have with their relatives and friends proclaimed it to their fellow sufferers, so that its popularity has become such that the demand for the water is now enormous. In consequence of the unparalleled celebrity which it has attained within so short a time other Springs have been advertised in different parts of the United States basing their claim upon the pretentious one that they are similar to the wonderful Missisquol Spring.

GEOLOGICAL FORMATION.

The character of the soil around these Springs is peculiar, there being a fine and extensive vein of fuller's-earth passing through them, while at the bottom of the Missisquoi are deposits of mineral substances, con sisting principally of pyrites and quartz. This Spring is from four to fiv feet deep, and the water rises in small jets through the minute apertures of a white marble-like hard-pan. Its flow is uniform. It neither in-creases by rains nor diminishes in drouths. The Missisquoi is the only said to show the presence of ingredients which no other water on th

WHAT ITS MERITS ARE BASED UPON. The Missisquot Spring Water is not recommended upon the streng and vague predictions of chemists and others of what it ought to accordish, nor upon its similarity to great springs of the old and new world but its merits rest upon the solid foundation of what it has done. The it has had for years a local reputation, and has a deeply interesting traditional history. The proprietor, in consequence of the monderful cure wrought in his own case in March, 1966, was induced to purchase the Spring and surrounding property, on which was discovered twelve other springs, which are in close proximity to the Missisquoi and all of different taste, smell, and effect, and for one year thereafter he gave the water freely to the public, without any pecuniary compensation what time he had the gratification of witnessing very many marrelous cures effected by it; indeed, in some cases the water seemed almost to perform miracles. The Missington Spaine Water has now not only a national

but a European reputation. Nature has a varied and occult laboratory of her own, and she has publiess put into the water of the Missisquoi Spring just such co reporties, and in just such proportions, as are necessary to effect the nees intended, irrespective of its apparent chemical preparation; for, after all, it is the cures wrought by this water which impart to it is

IT HAS CURED CANCER. Dr. Diron, an eminent Surgeon of the City of New-York and editor of The Scalpel, in a letter describing the effect of this water in a case of

The Scalpel, in a letter describing the effect of this water in a case of Glandular Cancer of several years standling, says:

"It is very evident that the use of the MISSISQUOI SPRING Water has raised this hady from a dying condition to confortable health and strength. When a woman has a disease that is invariably progressive, a pulse of 100 to 130 can stand with difficulty, and cannot cross a room eithout aid, and in a few months, during the use of a remedy, gains 20 perunds of flesh, and walks six miles, we are not at liberty to doubt its efficacy. I shall, therefore, unbesitatingly prescribe the waters in all esses regularing high tonic action, and where any chronic morbid swelling or growth is to be removed. I have already prescribed it successfully in servedulous enlargements of the glands of the neck, and in tumors of the ovaria and enlargement of the uterus."

FROM THE DEAN OF THE NEW-YORK MEDICAL COLLEGE.

Mrs. Dr. Lozier, Dean of the Faculty of the New-York Medical Colge and Hospital for Women and Children, writes: ege and Hospital for Women and Children, writes:
It gives one great pleasure to add my testimony to the healing properles of the Missisquoi Apring Water. I have at present about thirty palents using it. There inclind/shed cases of Uterine Cancer have been
word by it. - 2 - As yet I have never proscribed the Missisquoi
Water sithout good effects resulting from it.

C. S. LOZIER, M. D.

No. 261 West Thirty-fourth-st., New-York.

A PHYSICIAN CURED.

LINDER, GENERIC COUNTY, N. Y., October 12, 1967.

To the Proprietor of the Missispus Springs.

DEAR New: I wish to inform you of any once of an internal cancer by the use of the Missispusi Spring Water. The cancer was located in the left portion of my chest, assecting my heart and left long seriously. My health was no poor that I could not walk creet or steady during the cutive Winter and Spring of 1962-50.

I am an object of wooder to those who know me while peffective with

ire Winter and Spring of 1825-26.

I am an object of wonder to those who knew me while suffering with hat terrible malady. I owe my life to the Missisquoi Spring Water. I celieve it to be a specific for cancer.

I have sdivided many to use it, and can bear witness to its wonderful scaling powers. Yours, truly,

JONATHAN HOWARD, M. D. A CANCER CURED IN FOUR WEEKS. SYLVESTER ERIDGMAN of Northampton, Mass., had been afflicted a nearly three years with what his physician, who was well acquainted

an inch in length. It was growing rapidly, becoming more and more troublesome, and all medical skill failed in afording bim any relief.

After drinking the water between three and four weeks was entirely

cured, no trace being left but a sear, and even that had become in coloniate the natural skin. DISEASES OF THE KIDNEYS. In this class of cases it is prescribed by the most eminent physicians. the City of New-York, and also in diseases of the bladder, and many are The powerful action of the ingradients contained in this water is illus trated by the fact that frequent use of it on china has been known to cause it to crumble. To those ingredients are attributed the cures of

uli in the bladder. In such cases, the water dissolves the calculi

Several cases are reported of that nature. In other urinary affections if a equally efficacious. The following are but a very few of the many cases in which cores have been effected by the MISSISQUOI SPRING

BRIGHT'S DISEASE CURED. Schuyler Brewer, East Highgate, Vermont, had suffered for eight years with what the best physicians in Canada and in the vicinity of his residence called Bright's Disease. In September, 1966, he was failing rap. idly, and was mable to leave his bed, excessive hemorrhage having set in There was no hope of even prolonging his life. In that condition he began the ase of the MISSISQUOI SPRING WATER. After drinking it for three or four dars the discharge of blood ceased, and he is now able to attend to his business. He drinks the water omstantly, is most enthusiastic in his confidence of being entirely restored to health, and is

anxious that the world should be benefited by his experience. TWO OTHER CURES.

Mr. E. Pioney of Morgan, Ohio, writes, under date of Jan. 21, 1868, the following to the proprietor of the Missington Springs. Speaking of his son, he says: "His kidneys were very painful, and his urine, after standing a few minutes, was thick. He commenced to drink the Missis-QUOI SPRING WATER last March (1867), and in one week after he commenced drinking he was entirely free from pain, his urine was clear, and he has not been troubled since." Mr. Pinney adds; "I would also say that Thos. Nevison of this town, who is about seventy years of age has had a kidner complaint from ten to filteen years, and at times was very much bloated. He had been attended by many physicians without any benefit. I personded him to try the Missisquoi Sraino Water, which he did, and after drinking ten bottles of it was so much relief that he considers himself well." Mr. Pinney concludes by saying: "A

think it a sure cure for all kidney difficulties." SCROFULA. The cures of ecrofula by the Missisquoi Spring Water are innumerable. It never fails to effect a radical cure in the most aggravated cases

and the Spring has been renowned for over half a century in its immediate neighborhood as the great remedy for that disease. A PERMANENT CURE.

John F. Porter of Burlington, Vermont, certifies that for two years he had scrofulous ulcers, which discharged at various times, and were prononneed by his physician incurable; that he commenced using the Missisquot Spring Water on the 10th of April, 1887, drank and bathed with t freely for eight weeks, and felt its good effects in two weeks. In September following he was examined by the same physician, who pronounced him cured, there being no sign of the disease,

A CURE OF SCROFULA EFFECTED 46 YEARS AGO. Asa Dean of Bakersfield, Vermont, certifies that in the year 1822 he

took his son (then a boy about 5 years of age) to this Spring. He says that he was a complete scab from his knees down to his ankles; that he kept bandages, wet with the water of this Spring, on the affected parts for twenty-four hours at a time, and made him drink the water freely, and as much as he could of it; that in the course of a few weeks he was completely cured, and is now living, having never had a return of the

A CASE OF CONSUMPTION WITH OTHER DISEASES, CURED.

Putnam G. Stone, St. Albans, Vermont, had confirmed consumption one of his lungs being greatly affected. He drank the water for eight mosths, and is now cared. He was confined to his house, but is now able to be cut and attend to his business in all serts of weather. He had also an obstinate ulcer on the tougue, and suffered from a most appravated case of piles. Of those diseases he was also cured. He says that he is a miracle to himself, and would not be out of the water at any price SEDIMENT OF THE SPRING.

The deposit or sediment of the Spring is a black, greav substance, and those who have tried it upon an ulcer describe the feeling, immediately on its application, as like that of the pricking of a thousand needles, and

after remaining upon the ulcer for a short time the pain from it excru-clating. The powerful action of the action of the Spring furnishes in dubitable evidence of the strength of its waters. The water, builed down from a quart to a gill, is said to have an effect similar to the sediment, and many persons have received benefit from using if externally in that man-her, but the cures are attributable solely to the purifying influences of the water upon the blood.

IMPURITIES OF THE BLOOD. The Water is a powerful tonic, and a great remedy for all diseases svising from impurity of the blood.

CAUTION.

The public are cautioned against the many deceptions attempted upon them by those whose svarice exceeds their regard for the health and lives of the afficted, to palm off worthless fluids which now all the market under the name of mineral waters as being of equal merit to the The Missisquoi Spring Water is sold by all the principal Druggists throughout the United States.
